

Accident Investigation

WHO IS IT FOR?

This course is suitable for supervisors or managers or employee representatives who may be involved in the investigation and reporting of accidents and incidents.

AIM OF THE COURSE

To provide delegates with the ability to establish the cause or causes of accidents and incidents and develop systems to prevent a re-occurrence

LEARNING OBJECTIVES

At the end of the course delegates will be able to:

- Follow a systematic accident investigation procedure that establishes the cause or causes of accidents and incidents
- Collect, analyse and communicate accident data effectively
- Appreciate the requirements of the RIDDOR Regulations.
- Appreciate the purpose of investigating accidents (incidents, cases of work-related ill health and other occurrences)
- The legal and organisational requirements for recording and reporting such incidents

COURSE CONTENT

- Principles of accident prevention
- Benefits of accident prevention
- Basic concepts of human factors in accident and incident causation
- Accident reporting and scope of investigation
- Accident investigation techniques
- Stages of accident investigation
- Practical exercises and case study

DURATION

One day programme

CERTIFICATION

On successful completion of the course, candidates will be awarded a Praxis42 'Accident Investigation' certificate.
