

Safe Systems of Work and Permits to Work

WHO IS IT FOR?

The course is suitable for managers, supervisors and employees responsible for developing, implementing and operating safe systems of work or permits to work

AIM OF THE COURSE

To provide delegates with the ability to review existing processes and develop, implement and operate safe systems of work and permits to work in an organisation

LEARNING OBJECTIVES

At the end of the course delegates will be able to:

- Identify actions and conditions which may lead to Permit to Work failure
- Identify circumstances requiring a Permit to Work within the organisation
- Explain the role of risk assessment and method statements in the preparation of Permit to Work operations
- Critically appraise their organisation's permit documentation with reference to current HSE guidance

COURSE CONTENT

- Definitions
- Permit to Work system
- Human and system failure
- Case studies
